2023 - YEAR OF OPPORTUNITY

As we move forward in this transformational Decade of Action, we are committed to helping our members find innovative strategies and solutions for navigating the business challenges both now and in the future.

The members of the GCBL are well-positioned to be the shapers of the business and industry of the future through the guidance, network, collaboration and camaraderie of the GCBL.

WHY WOULD WE SAVE TREES?

We need trees for a variety of reasons, not least of which is that they absorb not only the carbon dioxide that we exhale, but also the heat-trapping greenhouse gases that human activities emit. As those gases enter the atmosphere, global warming increases, a trend scientists now prefer to call climate change. Tropical tree cover alone can provide 23 percent of the climate mitigation needed over the next decade to meet goals set in the Paris Agreement in 2015, according to one estimate.

In terms of climate change, cutting trees both adds carbon dioxide to the air and removes the ability to absorb existing carbon dioxide. If tropical deforestation were a country, according to the World Resources Institute, it would rank third in carbon dioxide-equivalent emissions, behind China and the United States of America.

THE ANSWER IS:

In order to protect the Planet, we need trees. At the Global Chamber of Business Leaders, we are aware that there is no science behind climate changes and there is only one planet we all have. We need to save our one and only planet.

MESSAGE OF THE CHAIRMAN

Dear Business Leaders,

I am honored to have been entrusted with the position of Chairman of the Global Chamber of Business Leaders, an outstanding organization that not only offers urgent solutions for recovery, resiliency, and better connectivity in this transformational future, but also provides our distinguished members and partners with a solid network of world-class connections, opportunities for collaboration, and mechanisms for business growth.

At the GCBL we are aware that after the period 2020-2022 that was fraught with uncertainty, disruption and challenges, the year 2023 will be a year of opportunity. With each challenge, there is always opportunity. We will continue to aim to empower our members to embrace the challenges and work together to be the change-makers, leaders and architects of a new and definitely a better future.

Remember, alone we can do so little, but together we can always do so much.

Sincerely yours,

Dejan Štancer

WHAT IS THE GCBL

The Global Chamber of Business Leaders is a coalition of governmental leaders, CEOs and executives, entrepreneurs, investors and business and industry leaders who share a common vision: the sustainable well-being and growth of business in a disruptive and ever-evolving global economy.

Global Chamber of Business Leaders prioritizes activities that align with the UN-declared Decade of Action, promoting the importance of the inclusion of the Sustainable Development Goals in the business models of the future, allowing our partners, members, and participants to prepare their businesses to be vanguards of the future.

The GCBL fosters a vibrant and interconnected business community, encouraging resiliency, growth and market expansion in a progressive business environment where collaboration spurs growth; education enhances ability and promotes opportunity; and advocacy influences authority.

GOAL OF THE GCBL

In this Decade of Action, business leaders, governmental officials and entrepreneurs from around the globe must come together in this global marketplace to share knowledge, facilitate business collaboration and opportunity, and work together to be a part of the global solution in this new, disruptive business environment.

Recognizing that innovative business models and best practices must unite with strategies of sustainability. It is our global mandate to govern, develop policy, and grow our businesses in a manner that makes a positive impact on the environment, society and our global economy.

GCBL YOUNG BUSINESS LEADERS PROGRAM

Our Young Business Leaders Program is designed for members between the age of 18-35, offering a platform of collaboration, career development, advocacy and leadership.

Our Young Business Leaders exchange ideas, share information, support and encourage one another to help keep ALL members achieving their career potential. Through our tight-knit, globally engaged community, leadership opportunities, resources, and career-focused programs, our young business leaders are truly shaping the future.

Young Business Leaders Program

WORLD NEXT LEADERS

TOGETHER WE ARE SHAPING THE FUTURE

WORLD NEXT LEADERS

Due to the economic situation, which is expected to worsen, more and more young people around the world will be deprived of a successful academic or business career. Many talents will remain undiscovered, and many professions and skills will be forgotten, the poverty factor will increase...

At GCBL, we have a solution for that too. We offer young people the opportunity to join the sub-program called "World Next Leaders".

We present the best possible role models to young people, such as successful global business leaders, the best of the best in the world of business, celebrities from the world of film, music, athletes...

The World Next Leaders program also involves the best universities from different parts of the world, as well as other institutions and organizations, including various NGOs, which help in the greater inclusion of young people.

It only takes a little to become a World Future Leader!

YOUNG BUSINESS LEADERS WELCOME!

The Global Chamber of Business Leaders encourages younger business leaders, executives and professionals at all stages of their career growth to join us, contributing their knowledge and perspective to all members. Through mentorship programs, we are committed to leading the way to a sustainable, unified and innovative future.

Participate in our dedicated programs and committees designed specifically for younger members. From sustainability and technology to advocacy and education, we endeavor to provide unique and singular value, which can only be found at the GCBL.

CLIMATE CHANGE COMMITTEE

GLOBAL CHAMBER OF BUSINESS LEADERS

CLIMATE CHANGE COMMITTEE

Climate change refers to long-term shifts in temperatures and weather patterns. These shifts may be natural, such as through variations in the solar cycle. But since the 1800s, human activities have been the main driver of climate change, primarily due to burning fossil fuels like coal, oil and gas.

The Committee on Climate Change was formed in response to the increasingly threatening consequences of climate change. The committee has the task of monitoring global events related to this urgent topic and, together with experts and the interested public, also addresses problems and offers solutions.

The Chairman's Award is the highest recognition given to an individual active executive of the Global Chamber of Business Leaders. The award is given annually by the Chairman of the Global Chamber of Business Leaders in his capacity as the institution's highest authority. The Chairman's Award is a pan-institutional and global award, so it is irrelevant what function the awardee holds in the institution, as well as the area of appointment of the awardee.

The Future of Leadership

President Barack Obama's path to success is unlike any other. As a global leader, pioneer and 44th president of the United States, his journey is one of resilience, perseverance and triumph, the result of exceptional determination and true tenacity.

In times of great challenge and change, President Obama's leadership ushered in a stronger economy, a more equal society, a nation more secure at home and more respected around the world.

Drawing on the themes that shaped his presidency, President Obama will share his thoughts on the challenges we're facing around the world, his vision for the future of leadership and explore the role we can all play in fostering leadership at a time when the world, and business need it most.
